Oh would I were a politician, Or else a person with a mission. Heavens, how happy could I be if only I were sure of me. How would I strut, could I believe that, out of all the all the daughters of Eve God had granted this former youth a binding option on his truth. One side of the moon we've seen alone, the other has never shown. What dreamless sleep, what sounding digestion, were it the same with every question! Here's to the good times spent and laughs we shared. From family to friends and all in between, thank you for your encouragement. Without it high school would have been impossible. To my teachers, who inspired me a educators as well as people; Mr. Lopes, Ms. Aborn, and Ms. Cowgill, thank you for all you've done. No matter what age I reach, I'll never forget: the fine arts crew, critiques, looking for Jack, homeroom, happy treeism, veritable cornucopia of manifest talent, the abstractionist, coffee ice cream, cruisin', and every bad idea that turned out right. Why do people worry about school so much? It ain't that much trouble, of course that is until you wake up for it. School time bites and I have no problem saying it. I believe that is why most people hate their school with a burning passion. I live my life not fearing the future and living for today. I like partying with my friends and messing with my enemies, and they know who they are.

If there is one important lesson I have taken away from bhs, it's that you should just be yourself. Don't worry about what other people think of you. Be happy in your own skin. Do what you love. Embrace who you are. Live life to the fullest. I know that everyone I've met is capable of doing all those things. You're all incredible people, thank you for all the laughs and all you've taught me. Special thanks and love to Tom, Brad, Alyssa, Michelle, my wonderful Mom and Dad, Jack for being so awesome, and all those who made my high school experience so amazing

Graduation is a grand accomplishment of the goal we have been pursuing for the past twelve years. We've worked hard to make this achievement, and I'm sure that many of us look forward to moving on to greater things. Remember that the journey is just as important as the destination. I'd like to say thank you to all my friends who made these four years memorable. I hope we stay in touch and remain as close as we are now. My two best friends, Kathleen and Kelcie, I know that we'll remain friends long after our graduations. I'd also like to thank all of my teachers.

Life goes by too fast. Who knows where it's taking us. I wanted to name all my friends but I'm afraid I'll forget one, but you all know who you are. Life is going to get interesting now, I'm going to lose a lot of important people, but i know I'll find more. I want to say I liked high school but im so glad to get out of here. Ode To Typical High School

Oh Cafeteria! Like a spring rose you burst forth at the noon hour to beckon me to your sweet threshold.

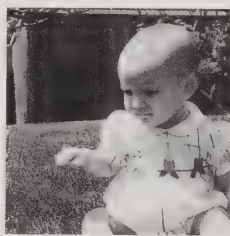

Oh Library! Your doors were guarded with such stringency that I oft regarded you as a high security prison-- of books.

Oh Classes! Were you really necessary?

Oh Teachers! Your gleeful tidings of A's were well recieved, yet I chastise ye rogue B-givers.

Oh Friends! I love you all. (But YOU were my favorite)

I guess it's pretty tempting to write
something deep or thought provoking in
here, but I feel that something like that
might be a misrepresentation of myself.
It's just a highschool yearbook, for a
school that I went to for a year. Hopefull
I will live the rest of my life according to
whatever deep or thought provoking
philosophies I have. If I look back on thi
years from now, my life may be awful,
but at least I won't have proof in my
yearbook of how badly I've sold out.

It is amazing how fast senior year goes by. As I look back on the twelve years I've spent traveling through Barnstable schools, the only thing I can say is: Where has the time gone? There are so many things I will carry with me as I end this journey and begin a new one. All the friends I made along the way, all the teachers who inspired me, and all the experiences I had; I won't forget these things. Nor will I forget all the people who have had an impact on my life in this community.

High school was a pretty good time. A lot of fun things happend during the past four years. It was pretty good except for the actual school part. School was way too boring and went by too slow. But all of the good things kind of offset the boring stuff in school. Thanks everyone. See ya later.

What is reality?How sure can we be that reality isn't the periods of sleep where we dream?Could reality actually be in fact the dreamsthemselves?Howcanwedetermine that when we dream,wereturn to the real world, and when we wake up, we dream? Why not live our dreams as our reality? Why not look beyond the limits of our eyes?Only to the beholder of our entire essence,usbeingthebeholder,canwedetermine for ourselves what our reality is.So why not dream?Do not give into the boundaries on reality.Look beyond, onto the outer limits of our lives,forthere arenolimits withinyourself.

"Life is the art of meeting new people." I want to thank everyone that I've met and learned from over the past 4 years. The experience has introduced me to some of the best people I know. And, especially thank you to my family. There have been a lot of good times in highschool, and all I have left to say to everyone is that to fully comprehend who you want to be and what you want in life you have to be yourself and do what you love and never forget that. Faster than I imagined it has come to an end; and with that i want to say good luck to everyone in the graduating class.

Now some people may say that four years here was about 720 days too long. But me, I'm not going to lie. I had some solid times at BHS. Indefinitely, those times occurred more so in the halls of the school, rather than in the classrooms. One fruitful exception would have to be Latin III, in which no one came out the same way they went in, indicating a drop in intelligence. In an attempt to perpetuate my manliness, I am letting you decide if we had good times together, not initials. I include the senior XC team...because we rule. Lyon out. Peace.

Later days Barnstable High School! It was an awesome four years of my life. It is hard to imagine going off to college and saying goodbye to everyone. It is likely that we will all become separated by distance and changing lives. It is bittersweet to think about leaving when we have shared 13 years together, the laughter, tears, good times, and friendships. I want to thank all the teachers that have impacted my life, and my family and friends that have been there for me. I have had countless laughs at the school that I will miss. But most of all I want to say "farewell" to everyone.

It is senior year 7:55 AM on October the 14th, the day this is due and I still don't know what I should write. It is now 8:11 AM the bell for homeroom has just rung. Thank you, everyone that has some way been part if my life. It has been a long journey to this fork in the road, but it will be short compared with the vast highways of life. I wish all a good trip and hope that at some point discover their true self. It is now 8:25 AM and I still don't know what I should have written but it is over with now and we must continue with the journey of life.

Yearbook Advisors

The yearbook staff acknowledges a diverse group
of people who have supported our efforts
throughout the year:

~**Mrs. Lee Weill** for her immeasurable
patience and guidance in all things technical

~**Mrs. Carvello** for always having -- and
sharing -- the key

~**The Tech Ed Department** for helping us
make the leap to the computer age

~**Mr. Michael Wojkowski** for four years of
time and energy as the class advisor

~and finally, all the understanding teachers
who graciously allowed students to arrive late
when pressing deadlines needed to be met.
